Franz Josef, West Coast

Hot Pools & Massage

The Glacier Hot Pools offers visitors to Franz Josef a relaxing natural sanctuary.

Nestled in a heavily wooded rainforest, beneath mature 30 metre tall trees, the temperatures of the three main pools and three secluded private pools range from 36 to 40 degrees; the perfect way for visitors to unwind and experience a blissful state of pure relaxation after travelling along Te Tai o Poutini (The West Coast) or enjoying one of its many attractions. Massage facilities add to an atmosphere of complete indulgence.

Amid this tranquil and enticing setting, the natural water features and call of native birds calm the mind and nourish the spirit.

The Glacier Hot Pools are fed by the waters of Kō Roimata o Hinehukatere, the frozen tears of Hinehukatere for her lost love. According to the legends of Ngāi Tahu (the local Maori tribe), these tears of aroha (love) were frozen by the gods, forming what is known worldwide as the Franz Josef Glacier, or to Ngāi Tahu as Kō Roimata o Hinehukatere – The Frozen Tears of Hinehukatere.

The three invitingly warm main pools and three secluded private pools are nestled within the bosom of Tāne Mahuta – Guardian of the Forest with his children, the native bush and birdlife creating a tranquil space to revive your tinana (body), hinengaro (mind) and wairua (spirit).

Public Pools

Our three public pools weave their way through the rainforest and offer a superb place to relax and rejuvenate in nature. Ranging in temperature from 36 to 40 degrees, and covered by giant sails offering protection from the elements, the pools are in perfect synergy with the environment.
